

INFORMATION ON THE CHESTERFIELD HOSPITAL RE-DEVELOPMENT PROJECT

Friday 14th June 2013

Dear Neighbour,

The week ahead, Monday 17th June to Saturday 22nd June

- On the site works side of things, much of the same over the coming week with works progressing both internally and externally on the new hospital building.
- Specialist sub-contractors are now on site progressing the fit-out of the operating theatres and radiology units.
- Works to the stable block are on-going and the new roof will be installed this week.
- The Grade II listed building works are still progressing with decorating, flooring and fit-out works underway. The scaffolding that has shrouded the entire building since commencement of the project is now gradually being removed. Practical completion for this building is early July.

The above photograph shows the progress on the former stable block roof, with the roof now ready for felt, batten and slate tiles.

If you have any queries on the above works that are taking place, then please do not hesitate to contact me.

Best regards,

Steve
