

INFORMATION ON THE CHESTERFIELD HOSPITAL RE-DEVELOPMENT PROJECT

Friday 24th May 2013

Dear Neighbour,

The week ahead, Monday 27th May to Saturday 1st June

The site will be closed on Bank Holiday Monday.

- On the site works side of things, much of the same over the coming week with works progressing both internally and externally on the new hospital building.
- All trades imaginable are now progressing works throughout the hospital.
- Specialist sub-contractors are undertaking preparation works within the basement of the hospital in readiness for the MRI and CT scanners to be delivered in early June.
- Works to the stable block will continue.
- Works to the Grade II listed building are still progressing and nearing the final 'finishing works' stage. The scaffolding that has shrouded the entire building since commencement of the project is now gradually being removed.

The above photograph shows the CT scanner room within the basement of the hospital building. The scanner will be located within the cut-out area in the floor.

If you have any queries on the above works that are taking place, then please do not hesitate to contact me.

Best regards,

Steve
